Subject: Note about IRIS MC
Attachments: Staffing new starts.xlsx; ATT00001.htm; IRIS_MULTIYEAR_AGENDA_12-2015.PDF; ATT00002.htm; 1. Index to new start files.xlsx; ATT00003.htm; IRIS staffing matrix Revised 09 29 16.xlsx; ATT00004.htm

See action items. This is what was agreed to, as I understand it. It is also likely that others expect we (Dahnish and Vicki) have been working on it.

I will open the meeting with this, and we can talk about the fact that this is not needed.

Subject: IRIS Management Council Meeting 10-6-2016

Hi folks – sorry for the late notice. Here is the information for today's IMC meeting at 1:30.

NOTE: we are meeting in room PYS4340 (one of the conference rooms on the 4th floor). There will be video (hooray!)

Agenda:

1. <!--[if !supportLists]--><!--[endif]-->Action items
2. <!--[if !supportLists]--><!--[endif]-->New Starts
3. <!--[if !supportLists]--><!--[endif]-->Other

Attached Files:

1. <!--[if !supportLists]--><!--[endif]-->Staffing new starts.xlsx – spreadsheet showing expertise needed for Tier 1 chemicals and staff that may be free
2. <!--[if !supportLists]--><!--[endif]-->IRIS MULTIYEAR AGENDA 12-2015.pdf – the pdf of the Multiyear agenda that is posted on the IRIS website
3. <!--[if !supportLists]--><!--[endif]-->1. Index to new start files.xlsx – an index to available background files and their description on Tier 1 and 2 new start chemicals
4. <!--[if !supportLists]--><!--[endif]-->IRIS staffing matrix_Revised_09_29_16.xlsx – the latest staffing matrix

All new starts materials are available at:

Ex. 6 Personal Privacy (PP)

Meeting Decision/Action Items from 9/12:

1. <!--[if !supportLists]--><!--[endif]-->Send Ammonia (Oral) material to Vicki/Dahnish (Ravi)

2. <!--[if !supportLists]--><!--[endif]-->Forward original Bob Kavlock memo and list of SES contacts (Norm)
3. <!--[if !supportLists]--><!--[endif]-->Forward any other relevant new start materials that have been developed (Norm or others)
4. <!--[if !supportLists]--><!--[endif]-->Vince will meet with the regions/program offices on the September monthly IRIS Program call (9/21/2016). He will provide information that IRIS will be doing follow-up in preparation of starting chemicals in Group 1 and Group 2 and asking their contacts to be specific about their needs in an assessment. (Vince)
5. <!--[if !supportLists]--><!--[endif]-->Put together a short description/summary of what information we have available, including what was sent out previously as part of the MYA work, and look at what other agencies may have developed in the interim. Then develop initial list of questions to put forward to the regions/program offices SES contacts to respond to. Start with one chemical to get MC consensus on format then do remaining 6 Group 1 chemicals and 2 Group 2 chemicals (uranium and ammonia (oral)). Questions might include: "Does this meet your need? Do you want all compounds? What route of exposure? Are there any susceptible populations?" (Vicki/Dahnish)*
6. <!--[if !supportLists]--><!--[endif]-->Develop decision matrix to help decide which to start with – include timing + expertise + complexity (?)**
7. <!--[if !supportLists]--><!--[endif]-->Respond with comments on materials when requested (all).

*We may have to have small group meetings to decide for certain chemicals

**I'm not sure who to assign this to, maybe Vicki and Samantha.
